

**EdVisions**

EdVisions provides support for school transformation and new school development, including coaching, workshops, conferences, access to research and a variety of instructional and assessment tools.

The Ed<sup>o</sup>Essentials provide the research-based best practices and operating principles. When coupled with the design process, teachers create powerful learning experiences and environments for their students.

**For more information, visit [edvisions.org](https://edvisions.org) or email [coaching@edvisions.org](mailto:coaching@edvisions.org) to learn how EdVisions can support your school.**

The Hope Survey assesses students' non-academic outcomes such as self-efficacy, optimism, and problem solving ability which impact traditional academic achievement and influence success and quality of life outside of school.

Now with the addition of the **Staff Survey**, the Hope Survey provides a truly comprehensive view of the climate, needs, and strengths of your entire school. Through the Hope Survey, schools can build a strong data driven decision making model which ties together relationships, relevance, and rigor through continuous school improvement.
